## Chairperson Message

*Sheikha Hessa Bint Khalifa Al Khalifa*  
Chairperson – INJAZ Bahrain

For many young people, INJAZ Bahrain offers their first glimpse into the workplace, introduces them to their first professional mentor outside their families, allows them to team with or compete with students from other schools and universities, and enables them to connect with CEOs of leading organizations in the country. INJAZ helps bring the real world closer to the students so they can prepare better and make better informed choices for their future. Despite the circumstances, this year marked another breakthrough with the participation of 17 High School teams and 16 University teams, around 400 students who have shown high level of commitment and self determination to dive into the world of entrepreneurship learning and explore the gaps in the market to build products and offer services that would have a societal impact. We are encouraged to see the resilience of schools, teachers and coordinators in their

overwhelming support in driving the young to explore such programs and opportunities for them to improve their skills and stay connected with what is relevant to the market place. Such programs are life changing experiences that shape their character and make them lead economically successful lives. It is crucial that we continue to nurture, protect, and offer a safe learning experience for every young person who may be challenged in various ways to have access to all the necessary tools to keep in par with education and virtual learning. And it's equally important that we continue to build connections and provide opportunities for INJAZ students to work closely with strategic market players for them to be ready for the job market and be prepared for a diverse and global economy.

**INJAZ helps bring the real world closer to the students**

**History has showcased that the company program leaves a lifelong impact**

*Hana Sarwani*  
Executive Director – INJAZ Bahrain

## Executive Director Message

Passion, Devotion and Commitment is all I can say is what has been witnessed from all Company program participants of this year despite the exceptional circumstances that we all have been faced with. We have concurred new milestones with the engagement of more than 33 Company Program teams who have taken the self-interest to be part of this unique journey and experience. History has showcased that the company program leaves a lifelong impact on these budding young entrepreneurs. It opens their mind to the realities of the market place, the competition, the corporate world and the various communities that they need to interact with. They get to know what it takes to be successful, to be a leader and to be able to change the lives of their peer group members. Pushing their selves to the limit, and having stressful moments in front of the camera are all part of their learning journey that will give them the confidence they need to be bright young individuals and have a competitive advantage compared to others when they enter the job market and mark their way to fulfill their dreams.

With our third year of Entrepreneurship Skill Pass

(ESP) certification, we are pleased to see the pass results at %54 compared to %52 last year. This will enable more students to get scholarship opportunities, and be offered unique further experiential learning opportunities to improve their skills and market knowledge. INJAZ Bahrain always looks to provide regional and global recognition for our students and ESP is one of them. Having the centralized regional platform "Localize" provided all company students with a tool to interact with students from other countries and benefit from regional high profile speakers and business experts.

Our heartiest gratitude to all the schools, volunteers, coordinators and judges who have been supportive and a source of inspiration for these young entrepreneurs. The efforts and time devoted will live with them for years to come. Many new opportunities and collaborations are in the making to provide the talented students of the Company Program with ample opportunities to turn their businesses into reality. We continue to be inspired and look forward to another exciting year with Company Program.

Be Safe and Be Entrepreneurial!

# The Company Program

**Company Program** encompasses business, entrepreneurship, and economics curricula targeting students of age 16 to 24. The entrepreneurship program emphasizes business content, while providing a strong focus on social studies, mathematics, reading and writing skills. Over the course of an academic semester, students start their own companies appointing positions, roles and responsibilities in order to function as a real business entity.

**Company Program Stages**

**Young Entrepreneurs Competition** enables the student companies to appear before a panel of high profile judges from the private sector who will evaluate the participants' concept, business plan and performance during the program. The competition is not simply a business competition for young people, as we attempt to balance the business achievement of each team as a whole with their members' individual performance and development.

Winning teams' companies from each of the 14 INJAZ member nations proceed to compete at the INJAZ Regional Young Entrepreneurs Competition. The event enables Arab youth to perceive themselves as integral players in regional and world markets, beyond the often limited opportunities in their own communities.

THANK YOU

# Program Impact

It is no doubt that the program has changed me personally and professionally for the better. Personally, I was subconsciously applying communicative skills and techniques that I learned from mentors and alumni throughout my journey which helped me in my day-to-day life, the person who was once shy to speak with individuals can now address a crowd and I am glad that I have gained that. I also gained another thing, friends. The people you meet and the ones you interact with really help you understand the meaning of a team. Memories that will never be forgotten. Arguments, laughs, and cheers.

They form a bond that never breaks. Professionally, there are many things that I gained that I could go on about but the one that sticks out the most to me is the following. I learned how to carefully analyze the finances of a business. When looking at a company, people in the company may lie, the mission might be false and the vision as well. But numbers never lie, and to have that knowledge is always an advantage. And I am forever indebted and grateful to the teachers, mentors and alumni that helped shape me into who I am today.

**Mohamed Almadani Sahim**

**Noora Ubaid Al Malga**

**Al Malga** has added a lot to my personality and also my professional life. I feel proud of my team and myself. Al Malga gave me such a great opportunity to be an entrepreneur and get to know the real market. This experience has added a lot to my knowledge and experience and hence, it will enrich my C.V and work profile. As we learned how to manage time and take the right decisions at the right time specially when dealing with different types of customers in terms of dealing with

their complaints and ensure achieving at most satisfaction and to end up having a good reputation and to always put ourselves in customer's shoes. At a personal level, it has changed me to a better person in terms of acting professionally person, segregating emotions from work and deal with different situations and the most important thing is self-motivation that nothing is impossible and I can do and reach any thing i want to pursue.

### Number of Students over the years

2018-2019		413 Students
2019-2020		442 Students
2020-2021		355 Students

## Bahrain wins three awards at INJAZ Al-Arab's 14th annual Young Entrepreneurs Competition

In an effort to recognize the achievements of young entrepreneurs, INJAZ Al-Arab, a member of Junior Achievement (JA) Worldwide, the world's largest non-profit business education organisation, held the 14th edition of its highly successful 'Youth Entrepreneurship Celebration'. The competition saw 111 ambitious students from 13 countries within the MENA region come together virtually to compete in the prestigious awards with Bahraini teams winning three awards.

With a two-day event held at the GPIC Club, the annual INJAZ Al-Arab competition witnessed Ibn Khuldoon National School's (IKNS) Team Sahim and Kingdom University's Team Malga from INJAZ Bahrain win a total of three awards at the regional event. Team Sahim won both the "Product of the Year" and Google "Best Digital Presence" Awards, while Team Al Malga won the Citi "Client-Focused Award".

The INJAZ Al-Arab Young Entrepreneurs Competition aims to enhance and nurture the entrepreneurial skills of Arab youth, providing them with necessary skillset for future jobs opportunities. The awards ceremony is an annual celebration of the achievements of students who participated and won the National Company Program Competition in their respective countries after showcasing their creativity and innovation by setting up their very own entrepreneurial companies. Bespoke mentorship is offered to students during a six-month period, where they enrich their business skills by learning about the complexities of running a business, financial literacy and what it takes to be part of a team workforce,

THANK YOU 

## YEC WINNERS EXPERIENCE

**Yousif Al Basri – CEO Sahim**

**Q1: Why did you choose to be an Entrepreneur?**

The reason I chose to be an entrepreneur is because I have always had the drive and passion to succeed with no limitations for creativity and innovation. Being an entrepreneur meant that I would open up doors for myself to further explore and learn without having to wait for the opportunity to be presented to me. I have always witnessed the way things work in the world and always wanted to make a change in them for the better and that is what truly inspired me to choose this path.

**Q2: As an entrepreneur how did you benefit from the exposure to other student companies?**

This particular type of exchange that occurred during the competition was extremely vital considering we were young students. As the companies and product ideas differed from one country to another, it was a great opportunity for us to read, analyze, and learn from our competition. The exposure we got during only three days made us thrive mentally and emotionally in what 3 years would not be able to achieve.

**Q3: what impact did winning an award in the YEC 2020 have on you?**

Winning an award in the competition definitely had a great impact because it mirrored all the hard work, time, and effort that we invested collectively as a team. As we all had personal goals that wanted to be achieved, we had even more important goals that we had to achieve not for us, but for our country, Bahrain. All of us entered the competition knowing that we are ambassadors of Bahrain, and winning those awards meant that we made our country proud.

**Q4: What is your plan to enhance your entrepreneurship future?**

From what the program has taught me to ensure the growth of my entrepreneurial mindset, I will face all challenges that come to me, volunteer to lead, and learn from mentors. I took this path knowing that I will not stop until I reach the end of the road and I will do whatever it takes to achieve that. Entrepreneurs change lifestyles, technologies, communities, businesses, and policies, and I do not want to just simply see the change but instead be the change.

# YEC 2021 Jury Panel

## High School Judges

**Sh. Abdulla Khaled Alkhalifa – BANAGAS**

# Driving Innovation

## Virtual Qualifying Round

12

INJAZ Bahrain has been fortunate to have witnessed a surge of Company student teams over the years. Thus, mandating the organization to introduce an added component to INJAZ Bahrain's Company Program, where the participating students compete against all the participating teams to get qualified to participate in the National Company Competitions. Independent Judges from the community were engaged to asses and evaluate the teams virtually. Whereas, 10 teams from the High School Track and 8 teams from the University Track got qualified for the National Company Competition.

# Young CEO Program

As part of youth development and providing opportunities to inspire and prepare young Bahrainis to succeed in a global economy, INJAZ Bahrain announced that its flagship Young CEO program will take place virtually in its sixth edition. Designed to connect young student CEOs with Bahrain's executives and professionals, the program witnessed the participation of 17 high school students and 15 university students for its 2021 edition. The Young CEO program delivers on INJAZ Bahrain's long-term vision to encourage young students to become future entrepreneurs and equip them with the right skill sets to succeed in the global economy. The program offers students who recently participated in INJAZ Bahrain's signature program, The Company Program, an opportunity to meet with diverse group of top executives in a virtual networking environment, where market knowledge and expertise is exchanged. The program also helps students foster an understanding of the roles and responsibilities of top officials represented by INJAZ Bahrain's board members as they develop into future business leaders.

Aljazi Alarabi

This experience is like no other and I'm delighted we fought to make it happen and be a part of it. I'm certainly appreciative of having this edifying opportunity. Being an introverted person with the ambition to become a CEO is something that people would laugh about. It was challenging, and even though I was struggling, I wanted to know to what extent I can get to. Thankfully, I passed the challenge with absolutely tremendous outcomes.

I never thought that I'd be able to communicate with people the way I can now, and I made new relationships and got to know people I never thought I'd speak to let alone team up with! This program is truly rewarding and worthy of time and energy. Never regretted a second I spent on anything related to it.

Fatima Al Hamad

Polytechnic  
ReachOut

The Young CEO Event was indeed a pleasure to have been given the opportunity to meet two of the most distinguished organizations in Bahrain and have a one-to-one session with the two esteemed board members. The knowledge that was delivered in this session truly revealed how important it is for any company to have a report that outlines its major departments and operations. Additionally, speaking to several INJAZ Bahrain Alumni was such a great chance for us to gain more experience and recommen-

dations about how to further improve our business and overcome any challenges that we could face. INJAZ Bahrain should be commended for such initiatives as these are the initiatives that assist and prepare students and youth. From the standpoint of experience, one can only say that the deliberations that took place were very valuable and had a lot of insight into how organizations operate and I am grateful to learn from the experience of the respected board members.

Team : Safaa  
Volunteer : Dr. Thuraya Juma  
Educator : Dr. Esra Wali

An application for productive families that includes classifications of their products, prices, sailing shops, and whether it could be delivered or not. Through the application, people can view all the products and request them. There will also be a rating by people of whatever they had so that others know what is best.

University of Bahrain  
Team : Maksab  
Volunteer : Hessa AlAtawi  
Educator : Dr. Esra Wali

Maksab is a website/app based product whereas community work and hours are provided to students ranging from 15 to 20 years old. Through partnerships with municipalities and small enterprises Maksab has been able to provide job opportunities to the students.

## My Success Story

27

*I would like to thank INJAZ Bahrain's team for believing in me*

At the time my mother and sister have been volunteering with INJAZ Bahrain, I was a High School student. And although I was so eager to volunteer, I could not, because of the age restriction. And I was not aware of any High School programs that INJAZ Bahrain offered at that time.

Then, in 2014, my journey with INJAZ Bahrain begun, as I volunteered in one of INJAZ Bahrain's primary school programs and ever since; my life has changed.

From participating in programs such as iCamp and The Company, to volunteering and being selected as an INJAZ Ambassador in my University.

In 2019, I had the privilege to be selected as one of the Bahraini delegates, to represent the Kingdom of Bahrain in the first Global Alumni Conference in Vienna, Austria.

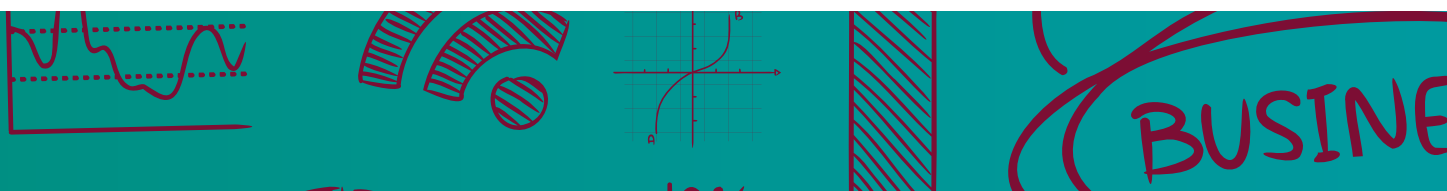

In 2020, I was once again privileged to be selected as INJAZ Ambassador & the President of INJAZ Bahrain Alumni Association for the Academic Year 2021/2020, which made the journey even more fruitful.

I would like to thank INJAZ Bahrain's team for believing in me, giving me countless opportunities and trusting my capabilities.

**Esraa Haji**  
President,  
INJAZ Bahrain Alumni Association
