2020 YEC Champions Experience

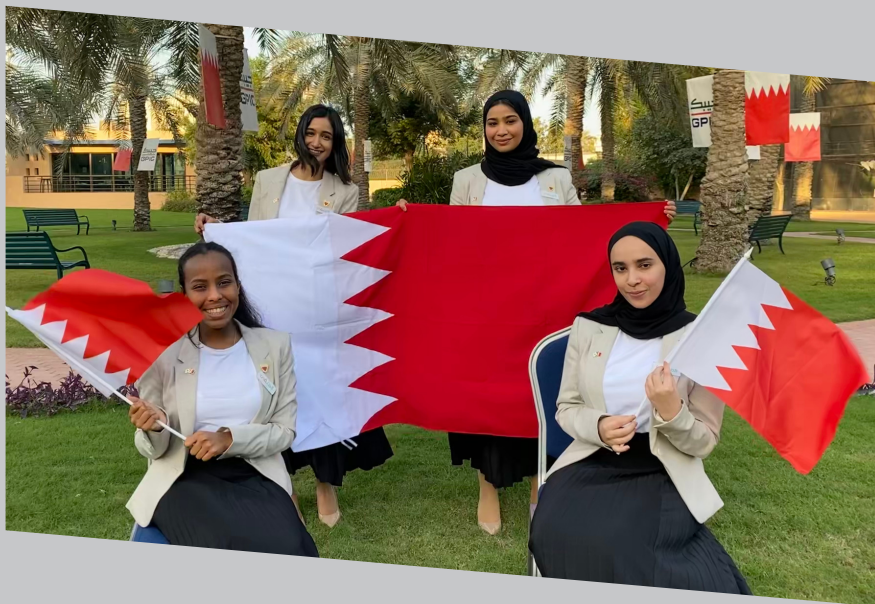

“The INJAZ Regional Competition alone is an experience that truly changed our lives as young high school students. This once in a lifetime opportunity has taught us more than what 17 years of our lives has taught us taking into account the different set of skills developed within this short period after all the time, effort, and money invested. However, under the exceptional

circumstances of COVID-19 it has been a great eye-opener where to our own advantage we were able to further explore opportunities to be creative and take this as an asset more than a liability or burden. To INJAZ Al-Arab and INJAZ Bahrain, we are forever grateful for the life-changing opportunity that was given to us and for seeing the entrepreneurs in us!”

Team Sahim

Ibn Khuldoon National School

“Knowledge, growth, opportunities, and awareness. These are the words that cross our mind when thinking of the ‘Company Program’. The business knowledge and the skills gained from this program empowered us to overcome challenges and to grow. Also, giving us the curiosity to seek and the sense of risk to see any opportunity or to create one. At the end of this journey, now we can say that we are aware and fully confident to enter and compete in any market.”
